To Whom It May Concern:

It is my pleasure to recommend Bradford Armstrong and ArmstrongPSI as an excellent Information Technology Organization.

Mr. Armstrong and ArmstrongPSI helped develop and build our company from the ground up. They covered all telecommunications and internet contracts and negotiations. They were dedicated to achieving the best deals for our company. They identified and provided the top equipment for all of our technical needs throughout the offices, galleries and entire Exhibition.

During construction, ArmstrongPSI was on the ground, developing and setting up multiple phones and internet lines for our entire business. They worked closely with our Design teams to meet the technical requirements to run the galleries of the Exhibition. They also worked alongside our vendors, from Ticketmaster to alarm monitoring to Management, to achieve all technical needs for the all departments, offices and the Exhibition.

They have redefined customer service. They always go the extra mile to assure the client is satisfied. They never miss a beat, and are on the ground or always available whenever we need them. They anticipate, they are proactive and they truly take care of their clients.

They continue to always go above and beyond for us, and provide excellent care and the top customer service. We are so lucky to have ArmstrongPSI on our team!

We could not have done this project without ArmstrongPSI behind the scenes for us. I cannot recommend Bradford Armstrong and ArmstrongPSI enough; simply put, they are the best!

Sincerely,
