To Whom It May Concern:

I am writing today in reference to Brad Armstrong and Armstrong PSI. Information technology is essential in delivering healthcare today. Brad and his team have allowed us to maintain a competitive edge in this respect.

Brad rebuilt our network, designed and implemented offsite storage and remote access solutions and helped us create a test environment that allows us to vet any updates to our electronic medical record before implementation. He did this while assuring updates and upgrades took place when needed with appropriate security measures in place to protect our patient confidential information.

Brad's work and personal ethics, along with knowledge and commitment to excellence sets him apart from his peers.

I consider Brad to be an indispensable member of our team and would highly recommend his services to any organization.

Sincerely,

Angelo Angerame
Chief Executive Officer
